

SUYASH JAIN SINGHVI

UAV Engineer | DGCA Certified Remote Pilot | Drone Testing & Operations Specialist

+91-8000040564 • sjsuyashjainsinghvi@gmail.com • linkedin.com/in/suyash-jain-82639132 • Jaipur, Rajasthan, India

PROFESSIONAL SUMMARY

DGCA Authorized Remote Pilot and Drone Instructor with 4+ years of experience in UAV manufacturing, drone operations, flight testing, aerial survey, mapping, defence drone deployment, and embedded systems engineering. Proven expertise in designing, customizing, testing, and deploying drones for surveillance, agriculture, payload delivery, and mapping applications. Successfully delivered surveillance drones to Indian Army units and led large-scale drone survey projects across India.

PROFESSIONAL EXPERIENCE

Smart Swift Innovations Pvt. Ltd.

Apr 2022 – Present

Director | DGCA Authorized Remote Pilot & Instructor | Jaipur

- DGCA Authorized Remote Pilot and Certified Drone Instructor for Small and Medium Category UAVs.
- Led manufacturing, assembly, customization, and deployment of drones for agriculture, surveillance, defence, and survey applications.
- Designed and integrated payload-dropping mechanisms for specialized UAV missions.
- Conducted UAV flight testing, calibration, troubleshooting, and performance validation.
- Executed drone-based aerial survey, crowd monitoring, city mapping, and surveillance missions.
- Delivered surveillance drones to multiple Indian Army units.
- Trained police departments, forest officers, army personnel, and educational institutions on drone operations and safety procedures.
- Managed end-to-end UAV deployment including mission planning, maintenance, testing, and field operations.

Key Achievements

- Delivered surveillance drone platforms to multiple defence customers.
- Trained government personnel and institutional participants through drone workshops and certification programs.
- Successfully executed drone service projects across multiple industries.

Reconense Traders (OPC) Pvt. Ltd.

Nov 2023 – Present

Founder & CEO | Jaipur

- Managing product development and commercialization of innovative gel-based medical insole products.
- Collaborating with medical professionals on product design and clinical validation.
- Overseeing manufacturing coordination, supply chain, and overall business operations.

ZeroGravity Aerosystems Pvt. Ltd.

Oct 2021 – Oct 2022

Technical Head

- Led UAV survey and mapping projects under Swamitva Yojana, Survey of India, Haryana Development Authority, Watershed Department, and ULBD.
- Managed fixed-wing drone operations for large-scale aerial mapping missions.
- Developed and tested UAV platforms designed for high-altitude terrain operations in Ladakh.
- Performed system integration, flight validation, troubleshooting, and operational deployment.
- Coordinated manufacturing and customization of drones for commercial and private users.

Key Achievement

- Successfully completed multiple government drone mapping projects across India.

The Transport Hub – Kitzo Insights Pvt. Ltd.

Dec 2020 – Sep 2021

IoT Engineer | Noida

- Implemented RFID-based vehicle tracking solutions across manufacturing facilities.
- Integrated real-time temperature and humidity monitoring systems for cold storage environments.
- Developed monitoring solutions for refrigerated transportation fleets.

- Connected industrial monitoring devices with Arduino and Raspberry Pi-based systems.
- Monitored and maintained over 350 deployed IoT devices.

Rockwell Automation India Pvt. Ltd.

Jan 2020 – Apr 2020

Internship

- Worked on industrial automation projects involving PLC and HMI integration.
- Assisted in L2 Integration processes for automated control systems.
- Supported panel design and industrial automation deployment activities.

KEY UAV PROJECTS

Defence Surveillance Drone Development

- Customized and deployed surveillance drones for Indian Army defence applications.
- Performed payload integration, testing, and operational validation.
- Successfully delivered UAV systems to multiple Indian Army units.

Fixed-Wing UAV Mapping Projects

- Led aerial mapping missions under Swamitva Yojana and Survey of India.
- Conducted mission planning, flight execution, and full project delivery across multiple states.

Agricultural Drone Operations

- Customized UAVs for agricultural spraying applications.
- Conducted field deployment and operational testing across multiple crop seasons.

RFID-Based School Transportation Safety System

- Designed a smart bus monitoring system using RFID, GSM, and embedded technologies.
- Enabled student tracking, attendance monitoring, and automated parent notifications.

Smart Parking Management System

- Developed a microcontroller-based parking management solution.
- Integrated sensors and web-based monitoring for real-time parking availability.

EDUCATION

MBA (Online) – Pursuing

2025 – Present

Manipal University Jaipur

B.Tech – Electronics & Communication Engineering

2016 – 2020

Manipal University Jaipur | CGPA: 8.1 / 10

CERTIFICATIONS

- DGCA Authorized Remote Pilot
- DGCA Certified Drone Instructor

LEADERSHIP & ACHIEVEMENTS

- Vice President – Wings Club, Manipal University Jaipur
- Event Convener – Aeromodelling Festival, Manipal University Jaipur
- Boeing National Aeromodelling Competition – IIT Kanpur (2017)
- Boeing National Aeromodelling Competition – IIT Bombay (2018)

ADDITIONAL INFORMATION

Languages: English, Hindi

Date of Birth: January 29, 1998

Marital Status: Unmarried

Nationality: Indian
